

## How do Colleges and Universities benefit from using WITS?

- \* A single customizable system to meet multiple tracking needs (i.e. Mail Tracking, Asset Mgmt., Records/File Tracking, Safety Gear, Student ID Tags, as well as University/College specific functions)
- \* Microsoft Cloud Computing provides an application that isn't geographically restricted and minimizes I.T. involvement (*multiple installation options available*)
- \* Unlimited searching included from any computer available to all Faculty, Staff, and Students on multiple browsers and also in other offices.
- \* Email and Text message capable notifications
- \* Ask us about our University/College discounts

## How does WITS work ?

Turn over to find out more...

## Verify. Input. Manifest. Deliver. Yes, its that easy.

- \* Software updates included at no additional charge
- \* Guaranteed overnight replacement of hardware without shipping charges available
- \* Extensive list of clients including many Universities and Colleges
- \* NACUMS vendor/supporter for over a decade
- \* Ask us about our NEW Interoffice Mail Application that provides end users the ability to create pick up requests and track intra-campus mail deliveries from any desktop on campus
