WINN SOLUTIONS

From Receipt to Delivery, We Have You Covered
It's Time for Accountable, Safe, and Secure Tracking Technology That Delivers

Track Packages, Mail, Assets, and Records with a Single, Easy-to-Use Solution

How easily can you track every package or asset that moves through your organization? Can you tell when it arrived, where it went, and who handled it? When it comes to tracking important assets, the old way of doing things is probably costing you time and money.

WINN Solutions and Zebra have partnered to create a safe, secure, low-cost solution that brings enterprise-level asset tracking to any organization. By combining our fully-customizable WITS software with Zebra's innovative mobile devices, scanners, and printers, we give you a single solution that makes it easy to successfully manage your packages, mail, assets, and records.

From Receipt to Delivery, WITS Has You Covered

WITS streamlines tracking with four simple steps that establish a chain of custody for your organization's valuable assets.

1 **VERIFY** – When a delivery is received, simply scan each package to verify and sort the quantity received.

2 **INPUT** – Tell WITS where the package is going to print a customizable routing label and generate an automated email to notify the recipient that the package is on the way.

3 **MANIFEST** – Group several items together or batch barcodes based on route or location and deliver items with a single scan or signature.

4 **DELIVERY** – Scan and deliver your packages and establish a chain of custody with the push of a button, just like the couriers do.

Enhance Tracking with Zebra Scanners, Mobile Computers, Tablets, and Printers

3600 Series
Ultra-Rugged Barcode Scanners
When Only Unstoppable Performance Will Do

Just how rugged is the 3600 Ultra-Rugged Series? When it comes to industrial strength, nobody does it better. In fact, the 3600 Series offers the most indestructible design available today, with the highest drop, tumble, and sealing specifications for comparable devices. All scanners in this family offer an 8-foot (2.4 m) drop specification that is 23 percent more durable than any other scanner in this class.

DS2200 Series Handheld Imager
Affordability and Simplicity Delivered

The affordable DS2200 Series adds the benefits of 2D imaging at an outstanding value to businesses with minimal investment. Get first time, every time scanning on essential 1D and 2D barcodes, so you do not have to compromise performance for price.

TC72 and TC77 Touch Computers
The Ultimate Ultra-Rugged Enterprise Touch Computers

TC72 WLAN and TC77 WWAN Android Touch Computers take service to the next level, combining the simplicity of a smartphone experience with ultra-rugged construction, complete cellular network flexibility, and a new platform offering more capabilities than any other device in this class.

LIFEGUARD FOR ANDROID

A Lifetime Security Guard for Your Zebra Android Mobile Devices

Extend the life cycle of your Zebra Android enterprise mobile computers with Life-Guard™ for Android™, the software security solution that adds years of OS security support to match enterprise hardware life cycles, simplify OS transitions, and extend your mobile investment.

With LifeGuard, you'll receive extended security support after the 36-month consumer support period ends, including predictable periodic security updates and legacy OS security support when transitioning to a newer OS. LifeGuard enhances your security with frequent updates and makes them easy to install at your discretion, either locally, or remotely via Enterprise Mobility Management (EMM).

GO ZEBRA TRADE-IN PROGRAM

Trade Up to Zebra and Save

For a limited time, when you purchase a qualifying Zebra mobile computer, tablet, scanner, or printer, you can receive a valuable rebate when you trade in an eligible older model or competitive product. With the Go Zebra Trade-in Program, you'll reduce your total cost of ownership on the innovative products that give your operations a performance edge. For more information, contact your WINN representative.

XSLATE R12 Rugged Table PC
Rethink What a Rugged Tablet Should Be

The XSLATE R12 is a next-generation tablet designed to be the only computer you'll need, with powerful 2-in-1 capabilities that accommodate the working styles and aesthetic preferences of your mobile workers in mixed environments.

L10 Rugged Tablet Platform
Versatile to The Core

The Zebra L10 rugged platform offers a variety of configurations and a shared accessory ecosystem that sets a new standard in office, vehicle, and field-based computing. Available as a standard slate tablet, as a 2-in-1 laptop/tablet with a full-featured keyboard, or with a rigid-handle and built-in barcode reader.

ZD420 Desktop Printers
Ease Of Use, Flexiblity and Management in Direct Transfer Printing

Faster, higher-quality printing keeps your business moving. With the ZD420, you get an intuitive interface and wireless connections typically found in higher end models. Plus, field-installable connectivity and media handling options allow you to purchase what you need today, yet easily add new features on-site to meet tomorrow's needs.

ZQ620 Mobile Printers
Business Tough—Built for All-day Everyday Enterprise Use

While the ZQ600 Series is lightweight and comfortable to wear all shift long, it is loaded with features that give it long-lasting durability, including over-molding, a tempered-glass display, and seamless one- piece design. The high-grade resin is one of the toughest plastics available for greater impact resistance. And multiple mechanical design improvements further increase printer robustness and uptime.

We'll Bring the Demo to You

Contact Your WINN representative to arrange a free trial and see firsthand how WITS combines with Zebra hardware to give your organization the enterprise-level tracking you need.
